<b>T13</b>	32	1 1/4	Brown		£15.30	£4.67
<b>T14</b>	38	1 1/2	Brown		£18.00	£5.49

### Selecting Tube Size

The sizes quoted are actual Internal Diameters. To select the right size either measure the Internal Diameter of the existing tubing in the middle of a run and select the nearest size from the above, OR, measure the Outside Diameter of the fixed metal tubes and select the next size down from the above in order to get a secure fit.

If you are still unsure, send me a sample of the existing tubing and I will recommend the best size.

The very small "Tracker Bar" tubing is 1/8" on the majority of player pianos, but some did use larger sizes, always check as above.

***We cannot exchange any materials which have been cut for you***

### Rubber Cloth

			Prices	
			Per Metre	Per 305mm.(ft)
<b>C1</b>	Extra Thin (~0.2mm)	For speaking pneumatics. <b>(135cm.wide)</b> (Rubber one side)	£28.00	£8.54

### Miscellaneous Tools & Materials

**Traditional Tracker Bar Pump** with removable filter - £30.00

**Tracker Bar Cleaner** – (Shaped attachment for vacuum cleaner hose) £4.00ea.

**Pearl Glue** £5.50 per 500g.

**Titebond Liquid Hide Glue – 118ml. (4oz.)** £3.70

**EVAPORUST** – New from the US, non-toxic, non-acidic rust remover. Has been successfully tested in the US on Musical Box Discs and Combs. - £10.00 per litre.

**Suction Box** - Motorise your pianola - Price (Including delivery in UK) - £330.00\*  
(Special Order - Normally supplied within 3 weeks)

These suction boxes are imported from America and are specifically designed for converting pianolas to semi-automatic electric operation. The suction box has electronic variable suction control for play and re-wind and can produce up to 50 inches of suction. The box is 7 inches square and will normally fit in the bottom right of the pianola (external hole needed for electrical cable). The package includes:-

Suction Box (with one way valve which allows foot pumping when switched off)

Connection Tubing

Metal Flanged elbow (you need to cut a hole in the back of the reservoir to connect the suction supply)

Control Panel (to be fixed under keyboard)

Re-wind Microswitch (to be linked to re-wind lever to provide different speed for re-roll)

Fitting and Operating Instructions, screws, wiring.

\*(**NOTE**:- Since these are manufactured in the US, they are 115 volt motors, so you will also need a 230/115 volt transformer. A suitable transformer is available from [www.farnell.com](http://www.farnell.com) Part No.1131567, or try your local B&Q who may have 110 volt tool transformers in yellow plastic case)

**Full Automation** kit also available, similar to the above but includes end of roll detection and automatic re-roll and cut-off. Price (Including Delivery) - £495.

(Special Order - Normally available within 3 weeks). Needs transformer as above.
